

## NEWSLETTER

Welcome to everyone at the commencement of 2010 and may it be a successful and rewarding year for all. A big thank you to all students for their Christmas good wishes for both Mr Robert and myself, all were very much appreciated.

RIDDLES, RHYMES AND RHYTHMS was a most successful concert from every aspect and thanks go to all performers and families who supported our request for more bottoms on seats...we did it! We also had support with our advertising through improved opportunities from Arts Centre Gold Coast and kindly through the Voss family helping with the signage on my car....I am sure that was a great help because you could not miss me!!

## CLASSES

Now everyone has found our studio at St Hilda's may I say just how happy we are to be back in our HOME as this studio was refurbished for us in 1993 by the then head mistress Mrs James and used by H.D.A. for 12 years during which we produced some pretty amazing concerts incorporating many St Hilda's day and boarding students. We are hoping the word will spread quickly that we are back full time on campus so the opportunity can be offered once more!

Today we are even more fortunate by having our studio at 17, Brendan Drive as well, to involve as many students as required, to encourage students to achieve in all aspects of dance by providing the best training by well accomplished, qualified teachers.

# Notice of Annual General Meeting

## About Our Organisation:

The Gold Coast and Ikeda Cultural Exchange was set up in 2006 to promote and assist the cultural exchange between Hinterland Dancing Academy and our sister dance school in Ikeda, Japan, run by Mrs Irie. There is opportunity for our students to be involved with the students from Ikeda when they visit Australia and/or to be chosen as part of a group to travel in subsequent exchanges/visits to Japan - a wonderful opportunity to build friendships, learn about the Japanese culture, be involved in combined concerts and participate in joint classes with a varied focus.

**Please get involved – it is a great way to support the students and the cultural exchange program.**
